

720 Series

Strong and Refined

Ergonomically constructed to combine comfort with modern design, Maglin’s 720 Chair enhances your outdoor living experience. The frame is made from laser cut and formed steel, and seats come in your choice of Ipe wood, Thermally Modified Ash wood or Powdercoated Steel.

From coastal parks and alpine trails to urban rooftops and commercial plazas in bustling cities, 720 Chairs and Lounges are crafted to endure rigorous use while maintaining their quality for years to come.
