

CANOE Modular Planters

Modular Planters Bloom with Possibility

Introducing CANOE, the modular planter system that liberates your creativity and lets you craft expressive urban landscape elements for outdoor spaces like streetscapes, roof decks, parks, and courtyards.

CANOE's versatile sections create continuous planter channels that connect to form sleek lines, sweeping curves, or dramatic turns at precise angles of 30, 45, 60, and 90 degrees. Integrate customized commercial planters and Ogden modular bench seating into any space, without the constraints and expense of custom fabrication.

Integrated Seating for Urban Landscaping

Curate verdant spaces throughout your design, bringing people closer to nature with intimate pockets of greenery and vibrant blooms. With CANOE, you can integrate modular bench seating on top or cantilevered along the sides for functionality and to form a natural gathering spot, further enriching your space.

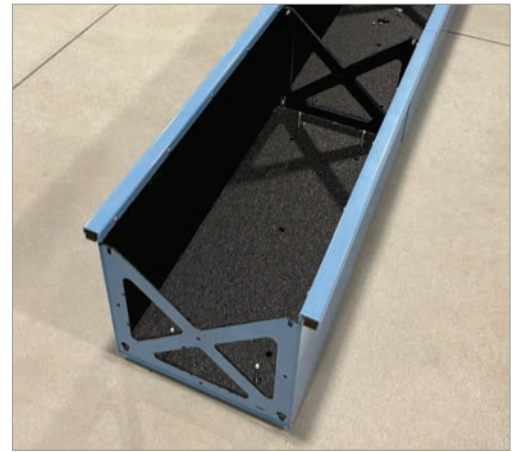

Ideal Applications for CANOE

- **Urban Oasis:** Add color and functionality to cityscapes with creative modular arrangements. Line pedestrian walkways or create gathering spaces in plazas.
- **Rooftop Retreats:** Define walkways, boundaries, and incorporate greenery in challenging elevated spaces.
- **Healthcare Haven:** Foster a calming environment in hospitals and senior centers with planter-bench combinations in courtyards and recovery areas.
- **Education:** Design learning gardens or outdoor classrooms with planters and benches.

Design Details

- **Durable Steel Frame:** Weathers the elements with Maglin's Superior Coating.
- **Curved Ranges:** CANOE offers multiple curved radius options for flexible design (IR 26" - 430").
- **Available Sizes:** Straight sections in 3, 4, 5, or 6 feet and 18-inch height.
- **Corner Sections:** Connect at 30, 45, 60, or 90 degrees.
- **Line-X Sealed Interior:** Protects steel and prevents leaks.
- **Drainage and Irrigation:** Openings with plugs for water management and irrigation systems.
- **Build & Price Online:** Use the Maglin Product Builder to select, build, visualize, and confirm your selected components.

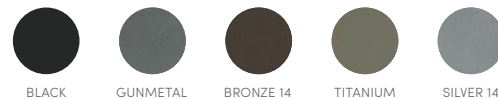

CANOE Add-ons

- **Elegant Wood Finish:** Optional rolled edge details with a stylish wood finish.
- **Ogden Collection Seating:** Transform CANOE into a social hub by integrating seating options.
 - » **Materials:** Thermally Modified Ash Wood, Ipe Wood, High Density Polyethylene (HDPE).
 - » **Installation:** Seating can be placed on top of the planter base or cantilevered to the side.
